

Inspired by the charm of cedar and the warmth of shake and shingle homes, The Foundry is passionately focused on products that deliver cedar's natural beauty, while providing maintenance-free endurance.

Homes clad in cedar have undeniable attractiveness, but wood requires regular upkeep to maintain its original appeal. Foundry siding is

crafted from more than 100 unique molds cast from real cedar to achieve incredible authenticity. Our premium PVC panels present genuine wood graining and a random look with minimal repeat visible on your home. And unlike with wood, there's no worry about rotting or cracking, or ever having to pick up a paint brush.

INNOVATION ORCHESTRATED THROUGH NATURE

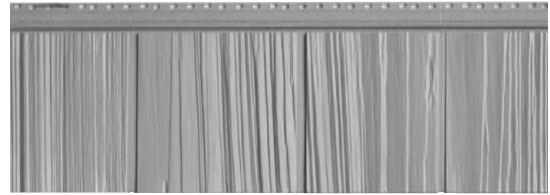

FOUNDRY WEATHERED COLLECTION

The Foundry's Weathered Collection captures the essence of time, giving a home the authentic appearance of cedar that has beautifully weathered over the years. Our proprietary process achieves this incredible look by presenting a darker shade of a color in the grain, and a lighter one on the higher points. The Weathered Collection is available in 7" Shake, 7" and 10" Staggered Shake, 7" Shingle and the 7" Perfection Shingle.

SHAKES, SHINGLES, AND STAGGERED

SPLIT SHAKES

Deep texture is the hallmark of Foundry Split Shakes, which offer the look of wood that's been hand-split by axe, revealing random grooves and grain. The depth creates captivating contrast between light and shadow to heighten visual appeal. Split Shakes are offered in the popular 7 exposure.

NEW CLASSIC PERFECTION SHINGLE

One of our latest innovations, The Foundry's new Perfection Shingle delivers the perfect balance of the deep texture of Shakes and the clean lines of Shingles. This profile offers a traditional look with a hint of ruggedness. Offered in a 7 exposure, the crisp vertical grains are highlighted, complementing random shingle widths.

SHINGLES

Shingles from The Foundry showcase classic style. They provide naturally-textured surfaces that feature the random marks of a mill saw, creating soft dimension that adds appeal to any home. Foundry Shingles are available in 5 and 7 exposure.

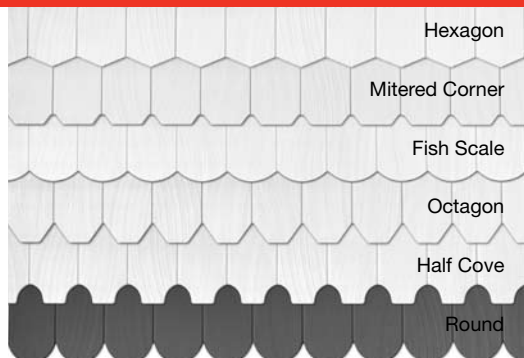

STAGGERED SHAKE

For bold texture, Foundry Staggered Shakes offer a rough-sawn appearance that gives a home a more rustic quality. The staggered butt ends and varied widths provide rich character. This profile is available in a popular 7 exposure and a 10 exposure that adds dramatic attractiveness by enhancing the shakes' long vertical grain and random keyways.

SHAPES

Signifying attention to detail, Foundry shapes distinguish a home with exceptional dimension. Whether you choose to accent a gable or create visual interest that extends all the way around your home, the possibilities are endless. Our six classic shapes are available in 6" exposure.
